

I don't want you dictating to me who I WILL have call my home!!!!

I enjoy not being interrupted by telemarketers and the likes, I would also enjoy BANKS getting the authority to call my home without my permission. In other words, do tell me who can and cannot call my home, that is my decision and mines alone!!!!

Why don't you do something that would benefit all Americans, help fight the war on terrorism, this would be much rewarding than just picking stupid craps to put to the forefront instead of being constructive and fighting something like the WAR ON TERRORISM!!!!!! I hope that is not going to be asking to much of you!!!!!! As a taxpayer, I know for a fact that we have too many so called politicians wasting our hard earned dollars, we definitely don't need the FCC running around wasting what's left on trying to force taxpayers deal with another form of telephone harrassment.

REMEMBER THIS: NO MEANS NO!!!!!! Stop the madness, idiots!!!!!!

I just wish I could see whether you Goobers look the way you act. (STUPID)
